For many years books have been borrowed from the State Library in Concord and sometimes from the Boston Public Library, but this year a larger number than usual have been sent for to comply with requests.

Mention should be made of the beautiful flowers furnished during the summer by Mrs. L. T. Damon. They added a much needed spot of color and did double duty in that they were given on Sunday to the churches for their services.

Report of the Superintendent of Schools

To the School Board and Citizens of Alton:

I am submitting my twenty-first annual report on the condition of the Alton schools. Some important changes were made beginning with the present school year. The Walker and Mountain schools were discontinued and the pupils transported to the village schools. This was done largely to reduce expenses to a minimum, but the schools were so small that the children now get some important advantages that they did not have before. The extension of the bus line from Gilman's Corner to the Walker school and the transportation of pupils from the Mountain school saves the district about \$1,000 a year.

The Alton schools are maintaining their high standard in the state with the same efficient and self-sacrificing teaching force that we have had for the past four years. The people of Alton are to be commended for their insistence on maintaining schools of high quality and exceptional success. The school officials are in complete sympathy with the demand that the school budget shall hold to the minimum of expense consistent with the high standards the Alton schools have always maintained.

STATISTICS FOR THE SCHOOL YEAR ENDING JUNE 30, 1933

The unrepeatd registration was 247; 137 boys; 110 girls; average membership, 220; average attendance, 206; per cent of attendance, 94. Seventeen were neither absent nor tardy; cases of tardiness, 114, which was much better than the year previous. Fifty-six pupils were transported; 83 are being transported this year. Twenty-six visits were made by members of the school board; 284, by the superintendent; 393, by citizens. The school board held nine regular meetings.

FINANCIAL CONDITIONS

The school board are asking that you carefully examine the budget as printed in this report and also the summary of expected receipts and expenses for the present year. By good planning a substantial balance was in hand in 1930 and maintained for the years following, even with a gradual reduction in expenses with rigid economy and falling prices. The minimum budget was reached last year and the balance reduced about \$1,000. For the present year the expenses were further curtailed and there will be a call for another \$1,000 of the balance. The school board have agreed on the printed 1934-1935 budget which will further reduce the balance on hand. Prices are coming up on many articles and it is not easy to make estimates that will be safe, but we shall do our best to make the outgo match the income.

Alton is fortunate to receive about a thousand dollars aid for Agriculture and Home Economics. That makes the salary of the Headmaster for Alton to pay of approximately \$1,430 and the salary of the Home Economics teacher about \$870. The teacher of Agriculture works through the summer and is paid on a twelve-month basis; the other workers are paid on a ten-month basis.

The State Aid for Elementary Schools which we have received for about fourteen years runs out this year. In 1920 Alton School District received \$4,821; for the next three years, about \$4,000; the next three, between \$3,000 and \$4,000. During these seven years Alton's equalized valuation increased \$714,811.00. Since that time it has increased \$161,143.00 more. It is about \$4,000 larger this year than last. The increase in property valuation has cut off State Aid. During all of these years the school officials have done their best to make new economies match the reductions in State Aid. However, it is quite a stretch from \$4,800 aid to no aid

at all. The relief comes from knowing that Alton still believes in holding her schools in the first rank.

HEALTH SUPERVISION

The promotion of health and the prevention of disease in our growing children are considerations of first importance especially during these troublous times. Inspections, home calls, clinics for the correction of defects, milk lunches, hot lunches at noon in cold weather, suitable food and clothing, are necessary. We are doing all we can to provide necessities and correct defects. A tuberculosis clinic was held in the fall and we expect a dental clinic this spring.

CONCLUSION

We need to be very sympathetic with one another and with our children when so many young folks are getting through high school with no funds to extend their education, or getting through professional or vocational school with no job in sight. We must help them to make some good use of their leisure time and prepare for the days ahead when times will be better. Agriculture and Home Economics in Alton High School are the only subjects that point directly toward earning a living and I am convinced that more young men and women must enter those fields.

It will be well if the older generation can give to the youth of today the kind of Christian examples that will end inspiration and hope sufficient to save them from the killing evils that surround us all of the time.

I appreciate better than ever the interest and co-operation of parents, citizens, school board, teachers, janitors, transportation agents, and the pupils in the public schools. May we not work together better in the days ahead?

Respectfully submitted,

F. U. LANDMAN,

Alton, N. H., Feb. 14, 1934

Superintendent.

Headmaster's Report

To the Superintendent of Schools:

I herewith submit my annual report for the Alton High School.

SCHOOL YEAR 1932-1933

Class	PUPILS

Senior	15	7	8
Junior	13	8	5
Sophomore	19	8	11
Freshman	17	11	6
	64	34	30
Totals	64	34	30

Out of the class of fifteen, one of the largest classes Alton High School ever graduated, three are taking hospital training, five are in higher institutions of learning, one is farming, one married, and the others are at home. Three of the boys graduating in agriculture are continuing in that vocation.

The High School per cent of attendance for the year was 96.72.

CLASSIFICATION

Classical	18
Home Economics	14
Agriculture	22
General	10

The Headmaster assists students in every way possible in the selection and adaptation of courses of study upon which successful work depends. All of the courses prepare for post-secondary institutions.

The History team was fourth out of 26 schools competing at the "Scholastic Tournament" last spring.

EXTRA-CURRICULA ACTIVITIES

Activities outside of the regular school courses are an essential part of school training. Sports, Rhetoricals, Special Programs, School Plays, Judging Contests, Music, and School Fairs are the chief outside activities of the Alton High School.

The annual High School Vocational Fair was poorly attended on account of a very heavy storm, but the program was well carried out and the display good.

The Judging Team in Poultry won first prize last fall at Hopkinton Fair.

Other activities help to give the boys and girls command of themselves in life situations.

CONCLUSION

The Alton High School teachers are anxious in every way to cooperate with school officials and parents in holding the success of Alton High School at its maximum. It calls for the individual responsibility of us all.

Respectfully submitted,

ORLANDO A. LESTER,

Headmaster.
